A DAY'S DOINGS IN ARIZONA

\$9,000 WORTH OF ORE TAKEN FROM A SEWER DITCH

HIGH GRADE STEAK OPENED BY A GANG OF MEN DOING EXCAVATING WORK IN BISBEE—TAKEN TO SMELTER.

BISBEE, April 27.—The return from the smelter on the shipments of ore made to Douglas from the ground underlying the railroad track in the vicinity of the slag dump show that in their operations the contractors who are excavating the sewer system removed about \$9,000 worth of ore from a small area in their operations along the right of way of the El Paso & Southwestern. Some weeks ago when the gangs working for the firm of Chick & White, contractors, commenced excavating in the vicinity of the slag dump, high grade copper ore was encountered. It was thought for a time that the mineral found was nothing more than some particles which might have been dropped from cars, when the old smelter was in operation in the city. Subsequent development work, however, showed plainly that the ore was in place where it was found, and a shipment of a car load and a half was sent to the Douglas smelters. All of it was very high grade and returned a gross profit to the Copper Queen company of a little less than \$9,000.

The company engineers believe that the ore discovered by the sewer contractors is a portion of a small deposit at a shallow depth along ground over which the railroad is constructed.

ARIZONA NEWS AND COMMENT

The Arizona Republican is installing a new Duplex press and will move to its new building during the next two weeks.

Phoenix churches are holding pre-local option election temperance services. It might have been a good idea if the church people had assumed a busy attitude years ago; in fact, all the time, and the necessity for a local option election would not have been so apparent.

An office has been opened in Phoenix for the sale of Mexican agricultural lands.

Ellen Beach Yaw, the noted singer will appear in concert at Phoenix on May 12.

The board of control and attorney general have perfected and drawn up a tentative prison contract with Architect Thurston Fitzhugh, who has taken the document to Los Angeles for some further estimates in his own interest, before he signs it. It is the purpose of the board to have everything figured out in advance, so it will know just what it will get for the money paid.

Emil Kielburg, a prominent rancher of Pinal county, will market forty tons of peaches this year.

The senate committee is suspicious of Phoenix proposed issue of bonds to

take up outstanding warrants, and will not pass a bill authorizing such an issue until satisfied that operators are not back of the scheme.

Ed Fondren and Robert Stewart, charged with the murder of A. J. Daggs, will be tried at Florence this week. Fondren's trial will commence tomorrow.

Justo Solis, convicted of stealing diamonds at Florence, has been sentenced to serve sixteen months in the territorial prison.

Florence had a badger fight the other night and in reporting the encounter the Blade says: Well, everybody is on the verge of a nervous collapse to see the fun commence, when that fellow Ernest Kellner of Superior yells ready and excites that Mr. Kielberg so that he gives the rope he is holding a horrible jerk to pull the badger out of the barrel, and I'll be darn if he didn't break the thing's neck. If that wasn't a messy trick to play on the boys, we want to know what you would call it.

There is great mining activity about Ray and Kelvin in Pinal county.

Tempe has been visited by a heavy fall of rain which did much damage to hay.

New potatoes, matured in seventy days, are now on the market at Mesa.

The prohibitionists of Maricopa county think they have the election as good as won.

Much building will be done in Tucson during the coming summer, according to the papers of that city.

Homegrown strawberries are a feature of Tucson markets.

Is a widow residing in California entitled to the same benefits as a widow residing in Arizona? This is a question that will be answered in an appeal filed in the district court in the matter of the estate of Charles Bauer, who was killed about a year ago by a man named Wells. Bauer's widow, residing in California, claims the entire estate, amounting to nearly \$700. Her claim is contested on the ground that she does not reside in the territory. The statute specifies that widows residing in the territory and having minor children are entitled, without contest, to any sum up to \$2,000 from the estate.—Tucson Citizen.

In a hotly contested race, Jack Stevens, the well known Bisbee miner, won out in the primaries over City Marshal Hasael Snodgrass and Deputy City Marshal Frank Johnson for the nomination on the democratic ticket for the position of head of the city police force. Johnson ran second, while Snodgrass brought up the rear.

Mrs. Williams, wife of Attorney J. S. Williams, is dead in Bisbee.

Bisbee is to vote for a school bond issue of \$92,000 on May 15.

Seven to eight car loads of onions will be shipped from Yuma as the spring crop.

Garciano Narez, a Mexican boy, aged seventeen, was drowned in Salt River at Granite Reef. Narez was a native son of Sonora.

Buckeye farmers are putting up hay. The crop is good.

The Bisbee Review prints figures to show that Bryan will be nominated on the first ballot. The New York World prints figures showing that the nomination of Bryan on the first or any

other ballot is exceedingly doubtful.

Bisbee has completed a piece of road work estimated to cost \$22,000 for exactly \$1,000. There is apparently little left to graft down Bisbee way.

Trinidad Cardenas has been arrested in Bisbee charged with murdering another Mexican in that city last December.

The second annual meeting of the Presbytery of Southern Arizona is being held in Bisbee.

Bisbee is digging her sewer pipe trenches nine feet deep.

Two cases of typhoid fever have been reported in Bisbee, the first this spring.

A real temperance lecturer has been denounced by the prohibitionists of Phoenix as a fake.

The Horse in Battle

A veteran cavalry horse partakes of the hopes and fears of battle just the same as his rider. As the column swings into line and waits, the horse grows nervous over the waiting. If he waits is spun out he will tremble and sweat and grow apprehensive. If he has been six months in service he knows every bugle call. As the call comes to advance the rider can feel him working at the bit with his tongue to get it between his teeth. As he moves out he will either seek to get on faster than he should or bolt. He cannot bolt, however. The lines will carry him forward and after a minute he will grip, lay back his ears, and one can feel his sudden resolve to brave the worst and have done with it as soon as possible.

A man seldom cries out when hit in the turmoil of battle. It is the same with a horse. Five troopers out of six, when struck with a bullet are out of their saddles within a minute. If struck in the breast or shoulder, up go their hands and they get a heavy fall; if in the leg or foot or arm, they fall forward and roll off. Even with a foot out off with a jagged piece of shell a horse will not drop. It is only when shot through the head or heart that he comes down. He may be fatally wounded, but hobbles out of the fight to right or left, and stands with drooping head until loss of blood brings him down. The horse that loses his rider and is unwounded himself, will continue to run with his set of fours until some movement throws him out. Then he goes galloping here and there, neighing with fear and alarm, but he will not leave the field. In his racing about he may get among the dead and wounded, but he will dodge them if possible, and in any case will eap over them. When he has come upon three or four other riderless steeds they fall in and keep together, as if for mutual protection, and the "rally" on the bugle may bring the whole of them into ranks in a body.—Buffalo Horse World.

"Health Coffee" is really the closest Coffee Imitation ever yet produced. This clever Coffee Substitute was recently produced by Dr. Shoop of Racine, Wis. Not a grain of real Coffee is in it either. Dr. Shoop's Health Coffee is made from pure toasted grains, with malt, nuts, etc. Really it would fool an expert—who might drink it for Coffee. No 20 or 30 minutes tedious boiling.
